

# National progress report of Switzerland 2010-2012

Jost Schmid (Central Library Zurich)

## Kartenportal.CH

A project for a virtual library for geo-information has been initiated in 2008 by the Swiss map curator's group ([www.kartenportal.ch](http://www.kartenportal.ch)). It is funded by the national project "E-lib.ch" whose common goal is a Swiss electronic library. This portal for maps incorporates essentially a Swiss-wide OPAC pointing to maps and geodata present in the various libraries. A prototype for a spatial-graphic search in this OPAC has been completed by Klokan Technologies GmbH, Baar, Switzerland and Camptocamp SA, Lausanne, Switzerland.

## Exhibitions (Selection)

*Kartenwelten – Die Kartensammlung der Zentralbibliothek Zürich*. 11. 11. 2010 – 26.2.2011, Central Library Zurich. The exhibition came with a publication of the same title.
